The improvements continue in the retail space next to the Transit Store. MTS Capital Projects Manager Elias Belknap has been overseeing additional demolition work, drywall improvements, and the installation of a new Heating, Venting & Air Conditioning system. Belknap said an RFP will be issued for a new entry door on the north side and a replacement door on the patio side. The goal is to make the space more move-in ready and attractive to a new tenant in the fast-casual food space.
